

# **PB** PRESSBOOKS

By supporting non-disposable, open, accessible, interactive, and customizable content, Pressbooks supports an online learning ecosystem.

Pressbooks consists of three tools that support the discovery, development, and delivery of open educational resources (OER).

- Pressbooks Directory
- Pressbooks Create
- Pressbooks Results

## **Pressbooks Directory**

Over the past decade, Pressbooks has supported the creation of thousands of OER. Now, over 3000 public books created with Pressbooks are available and discoverable in the Pressbooks Directory. Anyone can access OER on the web and download it in multiple formats. Users of Pressbooks Create can easily adapt books in accordance with license permissions. Visit Pressbooks Directory at <https://pressbooks.directory>

## **Pressbooks Create**

Using Pressbooks Create, faculty can write open textbooks from scratch, adapt existing OER for their classrooms, and enrich content with accessible math notation, videos, audio recordings, web annotation, and interactive elements like quizzes and other forms of assessment.

## **Pressbooks Results for LMS**

Pressbooks does more than support the creation of OER. With Pressbooks Results for LMS, course material and student outcomes can be easily integrated into an LMS gradebook. Pressbooks has achieved IMS Global Certification for the LTI 1.3 and LTI Assignment & Grade Service.
